SUPPORTING BIOMEDICAL INVESTIGATION

900 THIRD AVENUE
NEW YORK, NY 10022
(212) 421-8885

ARTHUR D. EISENBERG, PH.D.
ASSOCIATE RESEARCH DIRECTOR

April 16, 1993

Ms. Jacquelyn Joseph-Silverstein, Ph.D.
Assistant Director
Grants and Research
St. John's University
Grand Central and Utopia Parkways
Jamaica, New York 11439

Dear Ms. Joseph-Silverstein:

Thank you for your interest in our program of research support. In response to your request, I am pleased to enclose a copy of the explanatory materials sent by The Council for Tobacco Research to potential principal investigators who have inquired about support for their research projects. Those materials detail our two step application process. The executive committee of our Scientific Advisory Board first evaluates a Preliminary Application and decides whether or not to encourage submission of a Full Application.

Their decision is based not only on scientific merit, but also on appropriateness for inclusion in one of the Council's multidisciplinary program areas, as well as recognition of current support levels for similar projects. This procedure takes about two months.

In order that your office has on hand a reference set of our Full Application forms, a sample copy is enclosed. You will also find in this package our Statement of Policy, Information for Applicants and a recent Annual Report that lists currently supported grants and contains abstracts of papers that have appeared over the last year acknowledging support from The Council for Tobacco Research.

If you have any further questions, please feel free to contact me.

Sincerely,

Arthur D. Eisenberg
